

Westbrook School's Unique Features

- We are committed to the inclusion of the community in the Westbrook professional learning environment
- We take a multi-aging approach so students can learn from each other and there are more opportunities for individualized instruction
- We are a green school and have solar panels heating our water, we plant and harvest a garden each year, maintain an outdoor classroom and have bird feeders circling our play area
- Our students breathe clean air, enjoy a quiet play area where all ages have the opportunity to learn to interact
- Every teacher, our principal and all support staff know every student by name
- Students know all support staff and often seek them out for discussions
- We expand our classrooms by offering field trips so our students see the real world connection to their learning

"The place where everyone knows your name"

Over the years, Westbrook School has developed a reputation as a place where academic learning is key within a safe and caring environment. Because of our small population, students have excellent individualized help from teachers, teaching assistants, parent volunteers and their peers. We encourage students to work at their own pace and continually challenge them to reach their potential. All students can participate on our school teams and our older students often help to coach the younger students, which develops their leadership abilities. We are told by our local high schools that students who leave Westbrook are responsible, courteous, enthusiastic students who come to high school ready to learn and participate in all school activities.

Our strong academic program is supported by a commitment to life-long learning. As a values-based school, we stress treating everyone with respect and that concept is infused into everything we do.

Westbrook's Vision Statement:

"Creating a collegial and collaborative partnership of learners where students experience the opportunity to achieve their personal best in a safe, respectful, supportive and caring environment so that they may become responsible and valued citizens."

Our Staff

Our professional and support staff ensure that all children want to come to school and are safe, happy and well-cared for once they arrive. All staff are committed to creating a dynamic learning environment where all children learn, are respected and feel that they are an important part of our school community.

Since all our children are bused, our bus drivers take the time to get to know the children and ensure that they arrive at school happy and ready to learn. We have very few discipline is-

Our Community

Westbrook School is successful because of the commitment of our community and the parents and children we serve. In some cases we have third generation students. Other families choose to come to experience smaller class sizes, healthy air and the opportunity to be part of our close-knit Westbrook family.

We value open honest communication and work to develop trust and respect for all who enter our school. Parents and community members are always welcome at Westbrook.

Our Programs

Westbrook is a child-centred school where we believe that all children have a right to the best education we can provide. We believe that developing a strong academic base and establishing a positive self-image are equally important. This involves academics, extra-, and co-curricular athletics as well as development of a well-defined value system compatible with community expectations. Each child will feel a sense of self-worth and personal satisfaction as we provide opportunities that will both enrich and reinforce student learning.

Westbrook's on-site tipi is blessed by the Stoney First Nation Elders

Programs include:
Outdoor Classroom
Divisional Sports Program where all interested students participate
Annual Christmas Program and Drama Productions
Swimming and Downhill Skiing Programs
Special Interest Clubs
Annual School Fair
Annual Walkathon
Fine Arts Week

Our Students

Our Westbrook family of students have strong values and beliefs. Because of our small size there are many opportunities for peer interaction where empathy and kindness are very much a part of our school culture. Students come to school happy and ready to learn.

Supportive parents, teachers, support staff and community members assist our students to be successful academically, socially and emotionally. Expectations are clear and students and parents understand that while students are given opportunities to learn from their mistakes, if it is a safety issue, swift measures are taken. Mutual respect and teaching self-discipline are key to our discipline policies.
